Note:

- ** Please note that vessel schedule are tentative as per today's update and might change without prior notice.
- ** Assuring the best of our co-operation at all time, we look forward for your valued and continuous support

Remarks:

Please plan the cargo suitably expecting arrivals/ berthing of vessels with delay as these situations are beyond our control although we are constantly pushing terminals to give us berth on time.
 We are unable to bear any "incidental expenses" on account of these delays and we will not be able to entertain "any cost claims" in this regards
